TRIUMPH
PYRAMIDS HOTEL

Triumph Pyramids Hotel comes as a collaboration between MA Group and Triumph Hotels, creating an experience where contemporary luxury meets the timeless presence of history, beside one of the world's most iconic views. Every detail is designed to leave an impression, and every moment is created to become part of an unforgettable story

يأتي Triumph Pyramids Hotel كتعاون بين MA Group و Triumph Hotels، ليقدّم تجربة تجمع بين الفخامة المعاصرة وعظمة التاريخ، في موقع يحمل واحدة من أكثر المشاهد حضورًا في العالم. كل تفصيلة صُممت لتترك أثرًا، وكل لحظة خُلقت لتكون جزءًا من قصة لا تُنسى.

Concept & Vision

الفكرة والرؤية

Triumph of Time

Triumph of Time is a celebration of a different kind of victory, one that endures. Set before the timeless presence of the Pyramids of Giza, the concept draws from a place where greatness has outlasted centuries. Here, triumph is no longer a fleeting moment of success, but a lasting statement of legacy. The hotel becomes more than a destination, where modern luxury meets the spirit of permanence, and every detail reflects the power of what stands the test of time. Guests don't just stay, they become part of a story where victory is measured by how long it lives on.

يحتفي مفهوم Triumph of Time بنوع مختلف من الانتصار... انتصار يدوم. أمام الحضور الخالد لأهرامات الجيزة، تنطلق الفكرة من مكان أثبت قدرته على تجاوز الزمن، حيث لا يصبح الانتصار لحظة عابرة، بل أثرًا يبقى عبر العصور هنا، يأتي Triumph Pyramids Hotel كامتداد لهذه الفلسفة، حيث تلتقي الفخامة المعاصرة بروح الخلود، وتُصمم كل تفصيلة لتعكس قوة ما يصمد أمام الزمن. في هذه التجربة، لا يعيش الضيف إقامة فحسب... بل يصبح جزءًا من قصة يُقاس فيها الانتصار بمدى استمراره.

Live In Rhythm

From mornings filled with iconic scenery to moments designed to become lasting memories, life here transforms into an experience.

Meant to be
truly lived.

Life, Reimagined

Location

حيث يعيش التاريخ

Triumph of Time

يتمتع فندق Triumph Pyramids Hotel بموقع استثنائي على طريق الفيوم السياحي، حيث يلتقي عبق التاريخ بروح الضيافة العصرية. يقع الفندق على بُعد ٥ دقائق فقط من أهرامات الجيزة، و٧ دقائق من المتحف المصري الكبير، و١٥ دقيقة من مطار سفنكس الدولي ووسط القاهرة، و٣٠ دقيقة فقط من مطار القاهرة الدولي.

بفضل موقعه الاستراتيجي وسط أهم المعالم التاريخية والمحاور الرئيسية، يوفر الفندق تجربة إقامة متكاملة تجمع بين سهولة الوصول، والرفاهية، وإطلالات استثنائية على واحدة من أعظم الوجهات الحضارية في العالم.

Triumph Pyramids Hotel enjoys a prime location on Fayoum Touristic Road, where history meets modern hospitality. Nestled in the heart of one of the world's most iconic destinations, the hotel is just ٥ minutes from the Pyramids of Giza, ٧ minutes from the Grand Egyptian Museum, ١٥ minutes from Sphinx International Airport and Downtown Cairo, and only ٣٠ minutes from Cairo International Airport.

Surrounded by timeless landmarks and major routes, Triumph Pyramids Hotel offers guests seamless connectivity, exceptional convenience, and an unforgettable stay inspired by the legacy of ancient Egypt.

Life, Designed Differently

Surrounded by serene spaces, timeless views, and thoughtfully curated hospitality experiences, the project offers a lifestyle shaped by luxury, comfort, and a unique rhythm of living.

الرؤية المعمارية

Architectural Vision

يأتي المشروع كتجسيد معاصر للفخامة المعمارية، من خلال برجين يرتفعان فوق قاعدة متدرجة متعددة المستويات، ضمن رؤية متكاملة صُممت لتكون علامة حضرية مميزة وبوابة بصرية نحو الأهرامات.

وتخلق الكتل المعمارية حوارًا متناغمًا بين الارتفاع والاتساع، حيث تنساب الشرفات والمساحات المفتوحة عبر مستويات متدرجة تربط بين العمارة والمشهد المحيط في تجربة بصرية متكاملة.

وتحتضن هذه المستويات مجموعة متنوعة من التجارب الراقية، من المطاعم إلى مساحات الاستجمام والتجمع، جميعها مصممة لتعظيم الاطلالة والانفتاح على المشهد التاريخي الفريد.

وفي قلب هذا التكوين، يتوج المشروع بحوض سباحة أيقوني يطل على الأفق والأهرامات، ليجسد حالو التلاقي بين الفخامة المعاصرة و روح المكان الخالدة.

LIGHTING CONCEPT

A refined nighttime expression that highlights the architecture's form, materials, and depth through a multi-layered lighting strategy. The design enhances verticality, emphasizes the geometric metal screen, and creates a warm, welcoming atmosphere for a luxury hospitality destination.

- **ARCHITECTURAL EXPRESSION** — Highlight form, edges and structure.
- **HOSPITALITY AMBIENCE** — Create warm, inviting experience.
- **VISUAL COMFORT** — Balanced illumination with minimal glare.
- **ENERGY EFFICIENCY** — Smart control and efficient LED technology.

ICONIC NIGHT SKYLINE

The artificial lighting design of the Triumph Hotel Towers is conceived as an elegant architectural illumination strategy that enhances the tower geometry, materiality, and vertical identity while preserving the purity of the original form. The lighting composition is inspired by luxury hospitality architecture and the timeless glow of the Pyramids landscape, creating a refined nighttime landmark visible across the Giza skyline.

The facade lighting is organized into three integrated layers:

1. Edge & Outline Lighting Warm concealed linear LED strips are embedded along the tower edges, horizontal bands, skybridge contours, and stepped upper volumes to emphasize the sculptural silhouette of the towers. This creates a floating architectural outline that visually defines the tower proportions against the night sky while reinforcing the elegant curvature and layered geometry of the facade. The lighting subtly traces the verticality of the towers without overpowering the architecture, giving the building a sophisticated luminous identity.

2. Facade & Screening Illumination The decorative metal screening system is highlighted using integrated hidden uplights and soft grazing lights positioned within the facade depth. This lighting technique reveals the geometric lattice texture and creates dynamic reflections across the bronze and beige material palette. The illuminated screen becomes a visual focal element at night, adding richness, depth, and a patterned glow that contrasts with the transparency of the glass curtain walls. Light intensity is carefully controlled to maintain a balanced and luxurious appearance rather than excessive brightness.

3. Ambient Podium & Terrace Lighting The podium terraces, landscape decks, pools, and hospitality areas are illuminated using warm ambient lighting to create a welcoming resort atmosphere. Indirect lighting is integrated into planters, seating elements, pathways, water features, and stepped podium edges to enhance the multi–level open spaces without causing glare. Soft uplighting on palm trees and landscape features adds depth and visual softness.
