DEVELOPMENTS

Iconic Trinity Complex (ITC)

ITC is a premier landmark in the New Administrative Capital, covering 8,000 square meters and offering state-of-the-art administrative and commercial units.

Designed as a smart complex, it features advanced security systems, strategically planned parking, and a rooftop with luxury amenities, including swimming pools and relaxation areas overlooking the Green River.

As one of the first fully operational projects in the area, ITC is set to redefine business and lifestyle experiences, providing a sophisticated and dynamic environment in this rapidly growing city.

Our Architectural Philosophy

The ITC project seamlessly blends modern aesthetics with timeless elegance while adhering to LEED certification standards for sustainability.

Designed with a strong focus on environmental responsibility, it incorporates energy-efficient systems, superior ventilation, and extensive green spaces to promote a healthy indoor atmosphere.

In addition, ITC features specialized glass panels for enhanced energy efficiency and an advanced waste management system, further reinforcing its commitment to eco-friendly solutions.

These innovations position ITC as a leading green building, setting new benchmarks for sustainable development in the region.

Strategic Location of ITC

The New Administrative Capital is poised to become Egypt's leading business hub, offering exceptional investment opportunities for companies and entrepreneurs.

ITC is strategically positioned in MU23, a prime zone between the R2 and R3 residential areas, with direct views of Bin Zayed Axis, Al Amal Axis, and the Green River.

Located just 800 meters from Africa's tallest tower, this premium location enhances accessibility and visibility.

Its unique placement between two vibrant Residential districts makes ITC a highly desirable destination for businesses and investors, ensuring strong exposure and long-term growth potential.

Why Choose MU23?

MU23 is one of the most prominent investment zones in the New Administrative Capital due to its

- Prime Location: Positioned along Al Amal Axis between R2 and R3 districts.
- Proximity to Key Landmarks: Close to the Sports City, Olympic Village, and Egypt's International Exhibition Center.
- Excellent Connectivity: Near the Monorail station, ensuring seamless transportation.
- High Demand: MU23 is a thriving commercial hub adjacent to governmental and business districts.

These advantages make MU23 a prime destination
for investors seeking secure and high-yield opportunities.
