

Master Plan

Spanning across 40 acres in the New Capital, our challenge will be to build unique, luxurious, and green communities where our residents enjoy the true meaning of being home.

The percentage of construction within the project is about 18% of the total area of the project and 82% are green spaces in addition to a social club that includes swimming pools, sports playgrounds, a social building, a mosque that accommodates 500 prayers, the compound includes electronic entrances, garage for the residence, In addition to garages for visitors as well, it also includes a track for running, bike lanes and the compound is based on clean solar energy.
