WESTCLAY

REMAL DEVELOPMENTS

Concept

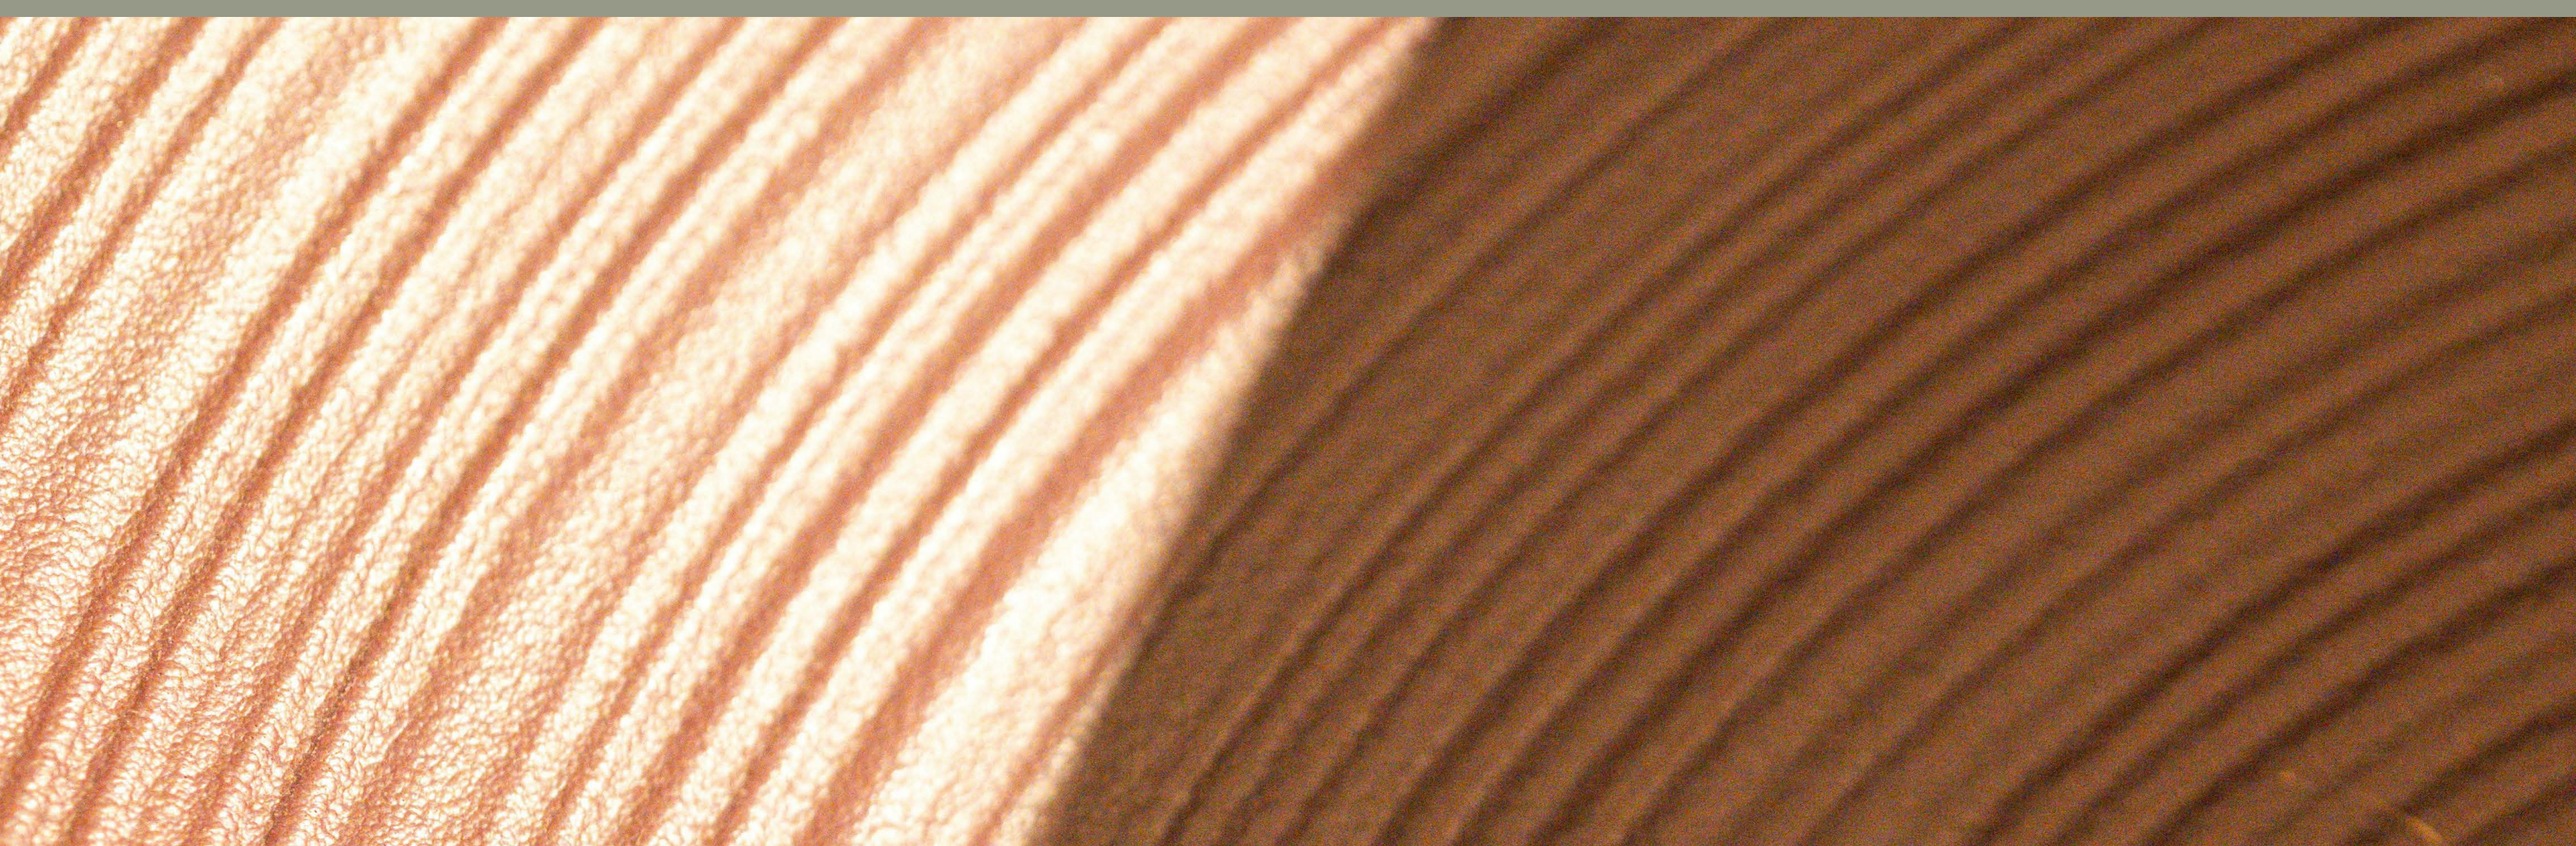

WESTCLAY created from the fusion of two key elements: “**West**” and “**Clay**.”

The term “**West**”

It reflects the development’s location in the western region, inspiring with a progressive Urban community.

Clay on the other hand, connects to a foundation or raw material that artisans shape into something of value and beauty.

It signifies the process of crafting and creating, pointing to how this compound aims to transform the landscape into a vibrant space where people can live, work, and thrive together.
